**Mitochondrial
Neurogastrointestinal
Encephalopathy (MNGIE)**
is an extremely rare
mitochondrial disease
impacting the **digestive**
and **nervous systems**

We aim to provide a **consistent framework** to evaluate the efficacy and safety of **liver transplantation (LT)** and other promising **enzyme-replacement treatments** for people living with MNGIE

Are you affected by MNGIE?

WE NEED YOU!

Your preferences and opinions are fundamental to improve **treatments standards and patient-centered outcomes** in MNGIE research
